ENJOY AS PART OF YOUR STAY OR BEFORE YOUR TREATMENT

The many healing benefits of water and heat therapies have been practiced for centuries to reduce muscle tension, relieve pain and stress, boost the immune system and encourage detoxification.

Fast forward to today's Six Senses hydrotherapy experiences, which provide an alternative yet therapeutic way to ease muscle aches and boost overall well-being, using the physical properties of water in several different forms. What's more, the muscles will be relaxed and the mind calmer, creating optimum conditions for achieving the best results.

Six Senses Hydrotherapy Walk

The high temperatures in the sauna help release endorphins, the body's natural painkillers, which aid in relieving muscle soreness and pain. Sweating also opens the skin's pores to flush the body's impurities in a natural way. Follow with experience showers to cool down, exercise the blood vessels and to wash away the toxins.

The Kneipp Therapy Foot Bath consists of walking in cold and hot water in short intervals to widen the arteries, stimulate blood flow and metabolism, and boost the immune system.

The idea behind this therapy is that the anatomical structure of one's body can be reflected in the shape, structure and energy zones of the feet. The Kneipp therapy has been used to treat a variety of health issues since the 1800's when Kneipp's entire system of healing rested on the power of hydrotherapy.

A session in the steam room helps release muscle tension, aches and exhaustion. It also assists in opening up airways that improves breathing, throat irritations and alleviates congestion.

MASSAGES

SIX SENSES SIGNATURE MESSAGES:***Movement Restoration, 90 minutes***

Designed to facilitate neuromuscular health, this therapeutic massage combines stretching and a range of motion techniques to help loosen and heal muscles, increase flexibility and blood circulation, allowing much needed oxygen and nutrients into the joints. Warm compresses are used during the treatment to relieve stiffness or pain by opening blood vessels and thus penetrating the muscles, ligaments and soft tissue on a deeper level. Also recommended for chronic pain and acute injuries.

Deep Tissue, 60/90 minutes - this massage releases stress, eases muscle tension, boosts circulation and improves mobility, as well as muscle and skin tone. It targets the areas of concern specified by a guest and works therapeutically into deeper muscle layers, addressing trigger points with gentle pressure and release techniques. Silicone cups and hot stones are used in the treatment, depending on the individual's need.

Detox, 60 minutes - an energizing massage focusing on the areas between the upper legs, glutes, lower back, hips and abdomen. It uses dry brushing and silicone cups to stimulate circulation, improve skin tone and elasticity, and it helps reduce the appearance of cellulite by breaking down adipose tissue and reducing fluid retention.

Tension Soother, 30/60 minutes - a reviving back, neck and shoulders massage using acupressure techniques to relieve muscle tension and restore mobility and alignment of the back and spine. 

Head Massage, 30/60 minutes - a deeply relaxing oil-based massage of head, neck and shoulders using cranio sacral techniques to ease tension in the muscles and fascia of the head and upper body, and induce a deep sense of calm. 

Relaxed Feet, 30/60 minutes - restore the body's balance and release aches and pains with this signature treatment using a fusion of massage techniques on the meridian lines of the legs and zones of the feet.
